Dear Josh:

Thanks for the copy of your reflections on
Space and Nonefforts Elsewhere. They served to clarify
my own thinking on these difficult subjects although I
guess I would have to confess that I am not quite as
sure as you are that our present orientation towards
space is entirely worth the price of admission.

Sincerely yours,

Robert S. Morison, M.D.
Director

Dr. Joshua Lederberg
Professor of Genetics
Stanford University School of Medicine
Palo Alto, California
